

GRAMMER SEATING SYSTEMS

Product Portfolio

COMPLETE SEATING SOLUTIONS PROVIDER

GRAMMER is a world leader in seating systems providing customers with complete seating solutions. GRAMMER offers a wide product range to meet requirements of many markets including agriculture, construction, material handling, and turf applications.

Traditionally Innovative

When Willibald Grammer opened his saddlery back in 1880, he planted the roots for our subsequent development and our corporate philosophy, "Innovation Based on Tradition and Quality Based on Perfection." True to this principle, the GRAMMER group has steadily evolved since being established in 1954 into a highly innovative technology leader. Healthy growth has been key for our business success.

Ideas for Better Comfort

With trail blazing innovations, global know-how, and first class products, we constantly strive to improve the quality of life for today's people with their mobile lifestyles. Day after day, millions of drivers and passengers rely on comfortable seating made by GRAMMER Seating Systems and on creative solutions.

Comfort and Safety

Our product philosophy is centered around people. Committed to the principle of "Design for Use", GRAMMER Seating Systems creates products that are remarkably ergonomic, user-friendly, comfortable, and safe. Our driver seats reduce stress and strain on backs and joints, prevent fatigue, and increase concentration for safer driving. And our passengers seats make for more relaxed, enjoyable travel.

Passion for Improvement

By closely collaborating with research institutes and intensively conducting our own development activities, we are in a position to turn the latest breakthroughs in various disciplines – e.g., ergonomics and biomechanics – into pioneering solutions for mobile people.

B 12

**Applications: Construction,
Material Handling, Turf**

MSG 20

**Applications: Construction,
Material Handling**

A CLASSIC DESIGN - OFTEN COPIED, BUT NEVER MATCHED

Standard Features:

- Semi-suspension seat
- Suspension stroke up to 1.6 in / 40 mm
- Weight adjustment range of 110-265 lbs / 50-120 kg
- Fore/aft adjustment of 5.9 in / 150 mm

Optional Features:

- Adjustable armrests
- Retractable seat belt
- Operator presence switch

Standard Features:

- Full-suspension seat
- Suspension stroke up to 2.4 in / 60 mm
- Weight adjustment range of 110-285 lbs / 50-130 kg
- Fore/aft adjustment of 8.3 in / 210 mm

Optional Features:

- Adjustable armrests
- Static or retractable seat belt
- Operator presence switch
- Document box

Material Handling, Turf**

INDUSTRY-LEADING LOW PROFILE, FULL SUSPENSION SEATS

Standard Features:

- Very low profile mechanical suspension
- Suspension stroke up to 2.4 in / 60 mm
- Weight adjustment range of 100-375 lbs / 45-170 kg
- Fore/aft adjustment
- Lumbar support

Optional Features:

- Adjustable armrests
- Retractable seat belt
- Backrest extension
- Operator presence switch
- Fore/aft isolator

Seat Top Options:

- 521 seat top (standard seat top)
- 522 seat top (high back)
- 531 seat top (extra wide cushion)

Standard Features:

- Very low profile air suspension (12V compressor)
- Suspension stroke up to 3.1 in / 80 mm
- Weight adjustment (electro pneumatic) range of 100-375 lbs / 45-170 kg
- Fore/aft adjustment
- Lumbar support
- Operator presence switch

Optional Features:

- Adjustable armrests
- Retractable seat belt
- Backrest extension
- Fore/aft isolator

Seat Top Options:

- 521 seat top (standard seat top)
- 522 seat top (high back)
- 531 seat top (extra wide cushion)

MSG 85 / 721

Light Duty

**Applications: Agriculture,
Material Handling**

MSG 85 / 721

Heavy Duty

Applications: Construction

GRAMMER'S TRIED AND TRUE SUSPENSION - PROVEN DURABILITY

Standard Features:

- Mechanical light duty suspension
- Suspension stroke up to 3.9 in / 100 mm
- Weight adjustment range of 110-285 lbs / 50-130 kg
- Fore/aft adjustment
- Height adjustment
- Lumbar support

Optional Features:

- Adjustable armrests
- Retractable seat belt
- Backrest extension
- Document box

Seat Top Options:

- 721 seat top (standard seat top)
- 722 seat top (high back)
- 731 seat top (wide cushion)
- 732 seat top (wide cushion with high back)
- 741 seat top (extra wide cushion)

Standard Features:

- Mechanical heavy duty suspension
- Suspension stroke up to 3.9 in / 100 mm
- Weight adjustment range of 110-285 lbs / 50-130 kg
- Fore/aft adjustment
- Height adjustment
- Lumbar support

Optional Features:

- Adjustable armrests
- Retractable seat belt
- Backrest extension
- Fore/aft isolator
- Control carrier console

Seat Top Options:

- 721 seat top (standard seat top)
- 722 seat top (high back)
- 731 seat top (wide cushion)
- 732 seat top (wide cushion with high back)
- 741 seat top (extra wide cushion)
